

Recruiting for your business

We find high-calibre candidates who
will help shape the future of your
business.

Why Bridgewater Resources?

Bridgewater Resources have been recruiting high-calibre talent for over a decade. We build real, lasting relationships with our clients in order to help shape their businesses and we get to know our candidates' personalities, skills and ambitions so we can find them a role that changes their lives for the better.

Our Recruitment Process

We can create a targeted recruitment campaign that promotes your opportunities to a vast audience.

Getting to know your business

We pride ourselves on having in-depth knowledge of our clients' businesses and this helps us to recruit more effectively. One of our Recruitment Managers will visit your business so we can learn about your company culture and requirements.

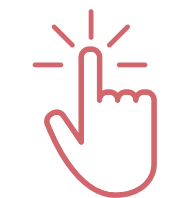

Advertising your opportunities

We will create an enticing job advert for your role(s) that will be promoted on our website, the UK's leading job boards and to our 29,000 social media followers.

Headhunting and search strategy

Our Consultants are headhunt and search specialists. They will implement a strategy to reach passive candidates that match your criteria.

Thorough selection process

We thoroughly assess candidates' personalities, motivations and long term objectives with a first stage interview. We will only notify you of high-calibre candidates that we know will be a good fit for your business. We prioritise quality over quantity.

Candidate management

We manage our candidates through every stage of the process from arranging their interviews and answering their queries to making job offers and ensuring they have everything they need for their first day. We organise everything, so you don't have to.
